DEUSTO Research 6i

Key enabling conditions

1

A robust number of externally evaluated and accredited researchers and research groups by the Basque Government

2

Clear underlying principles :

- Deusto's values of Social Justice;
- A people centred approach:
- Building trust; and
- Confluent 'win-win' goals.

Our contribution
to the Science

and

T€ 6
logy
System

59% Publications in the first-SJR

30% co-authored in scientific journals; % indexed publications in collaboration with other actors of the Basque Science,

(Scopus) technology and Innovation Network- RVCTI, out of total publications

34% International scientific

101% co-publications researchers and administrative and services staff participating in cooperative projects with companies

43 Projects in cooperation with other actors of the Basque Technology and Innovation Network - RVCTI

18 new Deusto researchers (1, ERC, 2 Ikerbasque, 3 Ramón, Juan de la Cierva, 4 Basque Government, 21 University of and Deusto, etc.)

88 predoctoral researchers (17 Marie Skłodowska-Curie fellowships, etc.)

Deusto approaches the man/ woman ratio - Teaching and Research Staff=1
